

New Source Review newspaper advertisements for construction permit applications, November 11, 2004. The following public notices have been published in the newspapers listed below each advertisement. These newspaper advertisements for construction permit applications were published on one of the following dates: November 9, November 10, or November 11, 2004. Public notices are generally published every two weeks. The previous publication of public notices was October 26 – 28, 2004.

### PUBLIC NOTICE

The Tennessee Division of Air Pollution Control (TDAPC) has received requests for construction of air contaminant sources as noted below. The proposed construction is subject to part 1200-3-9-.01(1)(h) of the Tennessee Air Pollution Control Regulations, which requires a public notification and 30-day public comment period. Interested parties may express their comments and concerns in writing to Mr. Barry R. Stephens, Director, Division of Air Pollution Control, 9<sup>th</sup> Floor, L & C Annex, 401 Church Street, Nashville, Tennessee 37243-1531 within thirty (30) days of the date of this notice. Questions concerning a source may be addressed to the assigned Division personnel at the same address or by calling 615-532-0554.

Individuals with disabilities who wish to participate should contact the Tennessee Department of Environment and Conservation to discuss any auxiliary aids or services needed to facilitate such participation. Such contact may be in person, by writing, telephone, or other means, and should be made no less than ten days prior to the end of the public comment period to allow time to provide such aid or services. Contact the Tennessee Department of Environment and Conservation ADA Coordinator, 12th Floor, 401 Church Street, Nashville, TN 37243, 1-866-253-5827. Hearing impaired callers may use the Tennessee Relay Service, 1-(800)-848-0298.

The applicant is Manufacturers Chemicals, L.P. with a mailing address of P.O. Box 2788, Cleveland, TN 37320. They seek to obtain an air contaminant permit (Division identification number: 06-0022-01/57609) for a Manufacturing Process located at 4325 Old Tasso Road, Cleveland, TN 37211. This facility consists of process equipment used to produce intermediate and finished chemicals such as defoamers, detergents, lubricants, emulsions, and processing aids. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be no physical construction. Regulated air pollutants are emitted by this source. Mr. S. Kusumanchi is the assigned Division person.

For the Bradley County "Cleveland Daily Banner"--published once on or before Thursday, November 11, 2004.

The applicant is Corteco, A Freudenberg-NOK Company with a mailing address of 131 Verner Avenue, Newport, TN 37821. They seek to obtain an air contaminant permit (Division identification number: 15-0004-07/57706) for construction of a Coating Operation at the same address. This proposed operation would consist of a glue roll coater used to apply adhesive to coiled sheet metal. The sheet metal would then be adhered to flexible graphite or other insulating material. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source. Ms. J. Aslinger is the assigned Division person.

For the Cocke County "Newport Plain Talk"--published once on or before Thursday, November 11, 2004.

The applicant is Worth Bat Company, Inc. with a mailing address of P.O. Box 88104, Tullahoma, TN 37388. They seek to obtain an air contaminant permit (Division identification number 16-0020-16/57715) for construction

of a Spray Coating Operation to be located at 100 Wilson Street, Tullahoma, TN 37388. The existing facility consists of equipment used in the manufacture of wooden and aluminum bats. This proposed source would consist of equipment used in the coating of aluminum baseball and softball bats. Exhaust filters would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this proposed source. Mr. R. Thompson is the assigned Division person.

For the Coffee County "Tullahoma News"--published once on or before Thursday, November 11, 2004.

---

The applicant is General Electric Company with a mailing address of P.O. Box 1919, Morristown, TN 37814. They seek to obtain an air contaminant permit (Division identification number: 32-0114-14/57731) for modification of a Molding Operation located at 5320 East Morris Boulevard, Morristown, TN 37814. This existing operation consists of eight (8) automatic molding machines. The requested modification is to change the existing permit language related to emissions tracking requirements so that the tracking requirements for this source would be functionally equivalent to those of source 32-0114-11. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. V. Murrell is the assigned Division person.

For the Hamblen County "Citizen Tribune"--published once on or before Thursday, November 11, 2004.

---

The applicant is Standard Construction Company, Inc. with a mailing address of P.O. Box 38289, Germantown, TN 37183. They seek to obtain an air contaminant permit (Division identification number: 35-0065-01/57727) for modification of an Asphalt Plant located at 4195 Ermon Rd., Whiteville, TN 38075. This existing operation consists of crushed rock and sand stockpiles, a continuous type mixer, and associated equipment used to produce hot-mix asphalt. Number 2 fuel oil is used for fuel. Wet suppression and a baghouse are used for pollution control. The proposed modification is to incorporate the State's current pollutant emissions standard for asphalt plants into a new permit. There would be no physical construction. Regulated air contaminants emitted by this source would decrease. Mr. R. Benjamin is the assigned Division person.

For the Hardeman County "Bolivar Bulletin-Times"--published once on or before Thursday, November 11, 2004.

---

The applicant is EQ Mobile Recycling Services, Inc. with a mailing address of P.O. Box 310, Mount Airy, NC 27030. They seek to obtain an air contaminant permit (Division identification number: 44-0038-01/57713) for construction of a Solvent Recovery Operation at 1107 Grundy Quarles Hwy, Gainesboro, TN 38562. This proposed operation would consist of a portable liquid separation unit used to recover a target solvent from the liquid waste generated at Eaton Corporation. A diesel generator would be used to power the unit. Heat energy would be applied to the liquid waste to vaporize the target solvent. The target solvent vapor would then be condensed and stored for reuse at the site. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. M. Smith is the assigned Division person.

For the "Jackson County Sentinel"--published once on or before Thursday, November 11, 2004.

---

The applicant is Ideal Cleaners with a mailing address of 235 West Main Street, Jackson, TN 38301. They seek to obtain an air contaminant permit (Division identification number: 57-0268-01/57613 for a Dry Cleaning Operation located at the same address. This existing operation consists of two (2) dry-to-dry perchloroethylene

dry cleaning machines. A refrigerated condenser is used for pollution control with each machine. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. Jim A. Attar is the assigned Division person.

For the Madison County "Jackson Sun-Daily"--published once on or before Thursday, November 11, 2004.

The applicant is Citizen Gas Utility District of Scott and Morgan Counties with a mailing address of P.O. Box 320, Helenwood, TN 37755. They seek to obtain air contaminant permits for the following air contaminant sources:

(1) Natural Gas Compressor Station (Division identification number: 65-0050-01/57496) located at 3893 Nashville Highway, Deerlodge, TN 37726. This existing operation consists of two (2) 600 HP natural gas-fired compressors and one (1) 360 HP natural gas-fired compressor. The compressors are used to transfer natural gas to different locations through gas pipelines. Because of the amount and type of emissions, the use of air pollution control equipment is not proposed. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. M. Baghernejad is the assigned Division person.

(2) Natural Gas Compressor Station (Division identification number: 65-0051-01/57497) located on Sunbright/Burrville Road, Sunbright, TN 37872. This existing operation consists of one (1) 600 HP natural gas fired compressor used to withdraw natural gas from a storage field. Because of the amount and type of emissions, the use of air pollution control equipment is not proposed. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. M. Baghernejad is the assigned Division person.

(3) Natural Gas Compressor Station (Division identification number: 65-0052-01/57499) located on Brewster Town Road, Burrville, TN 37775. This existing operation consists of one (1) 600 HP natural gas fired compressor used to withdraw natural gas from a storage field. Because of the amount and type of emissions, the use of air pollution control equipment is not proposed. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. M. Baghernejad is the assigned Division person.

For the "Morgan County News" published once on or before Thursday, November 11, 2004.

The applicant is Citizen Gas Utility District of Scott and Morgan Counties with a mailing address of P.O. Box 320, Helenwood, TN 37755. They seek to obtain an air contaminant permit (Division identification number: 76-0075-01/57500) for a Natural Gas Compression Station located on Helenwood/Detour Road, Helenwood, TN 37862. This existing operation consists of one (1) 360 HP natural gas fired compressor and one (1) 160 HP natural gas fired compressor (for back-up). The compressors are used to withdraw natural gas from a storage field. Because of the amount and type of emissions, the use of air pollution control equipment is not proposed. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. M. Baghernejad is the assigned Division person.

For the "Scott County News" published once on or before Thursday, November 11, 2004.

The applicant is Mayes Brothers Tool Mfg. Co. with a mailing address of P.O. Box 1018, Johnson City, TN 37601. The applicant seeks to obtain an air contaminant permit (Division identification number: 90-0156-01/57638) for construction of a Surface Coating Operation at 713 Clairmont Road, Johnson City, TN 37601. This proposed operation would consist of a spray booth and associated equipment used to coat wood. Exhaust filters would be

used for pollution control. There would be no physical construction. Regulated air contaminants would be emitted by this source. Mr. K. McLain is the assigned Division person.

For the Washington County "Johnson City Press"--published once on or before Thursday, November 11, 2004.

The applicant is Jim Carey with a mailing address of P.O. Box 645, Franklin, TN 37064. They seek to obtain an air contaminant permit (Division identification number: 94-0242-01/57702) for operation of a Gasoline Dispensing Facility at Leipers Fork Shell located at 4348 Old Hillsboro Rd., Franklin, TN 37064. This existing operation consists of three (3) 8,000 gallon gasoline tanks and 21 gasoline dispensing nozzles. Stage I and Stage II vapor recovery equipment are used for gasoline emission control. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. G. Gatlin is the assigned Division person.

For the Williamson County "Review Appeal"--published once on or before Thursday, November 11, 2004.
